we turn **toys** into **tools**[®].

Introducing
PoleMiner

There's gold in your data!

PoleMiner extracts the valuable distribution pole images from your data in minutes.

- Automated data processing
- One photo to review per pole
- Realtime results
- Your data stays on the SD card
- No connectivity required

We're a woman-owned robotics company out of Plano, TX.
We've been putting AI on drones for utility asset management since 2017.
Our products make your drone ops safer, more efficient and more informative.
